

Standard Last-Mile Delivery Policy

Document ID: DOC-003

Title: Standard Last-Mile Delivery Policy

Version: 2.1

Document Type: POLICY

Category: Delivery Policy

Effective Date: 2025-01-01

1 Delivery Attempt Quota

RaftarXpress couriers must perform up to three (3) verified delivery attempts on consecutive business days before classifying a shipment as undeliverable. Each attempt requires GPS logging and recipient contact verification via automated SMS.

2 Recipient Identity Verification & Handover

High-value consignments exceeding PKR 25,000 and corporate shipments require digital CNIC verification and a one-time password (OTP) transmitted to the registered consignee phone number prior to physical handover.

3 Unattended Delivery Prohibition

Riders are strictly forbidden from leaving parcels unattended at doorsteps, security gates, or with unauthorized third parties without explicit written consent recorded in the SupportNova delivery portal.

4 Return to Origin (RTO) Initiation

Following three unsuccessful attempts, the parcel will be held at the destination regional hub for forty-eight (48) hours before initiating automated Return to Origin (RTO) routing back to the shipper.
